

Our awards and scholarships aim both to recognize exceptional applicants and to support highly promising and deserving candidates who are unable to pay the full cost of an IE education. In keeping with the IE Foundation's focus on equity and access, most of the scholarships have specific criteria based on a combination of merit and financial need and require filing an online application separate from the admissions application.

Award and scholarship recipients are expected to act as ambassadors for IE and participate in outreach and alumni engagement initiatives.

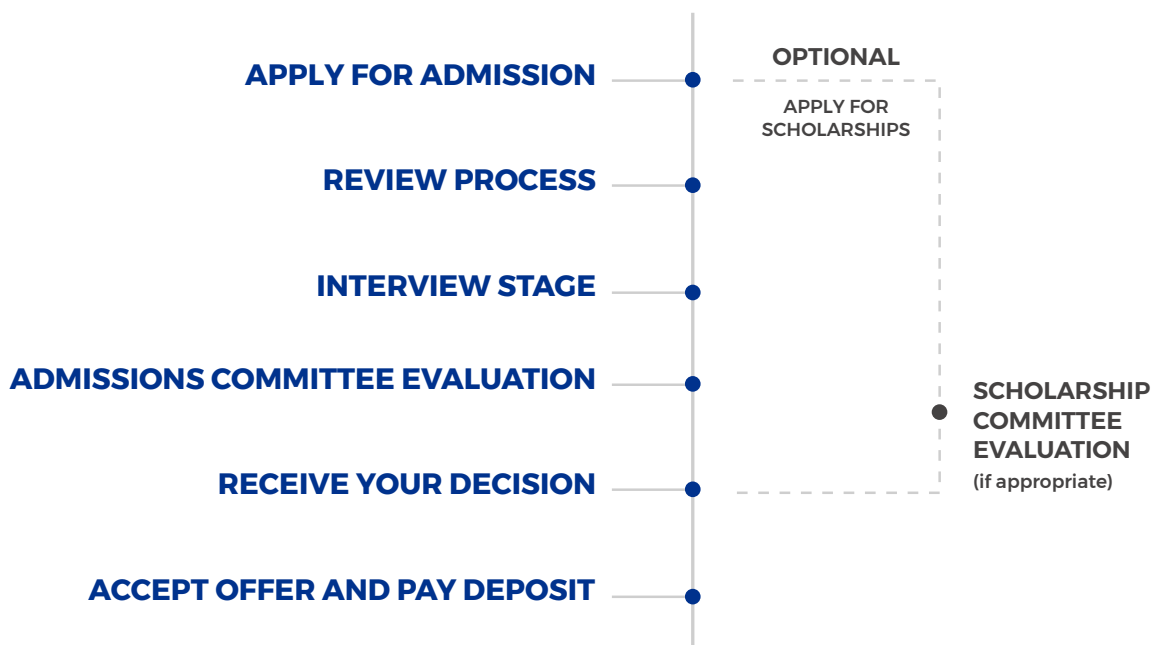

Get Started

You will be automatically considered for our High Potential awards with the on-time submission of the admissions application, without the need to submit a separate scholarship application. A number of these entrance awards are made available in all rounds and will be offered to candidates, regardless of their financial situation, based upon exceptional performance, application strength, and fit to the program and our school.

For those of you who would like to be considered for scholarships, this page contains important and useful information for you if you wish to apply for, and are granted, a scholarship towards your Tech MBA at IE Business School.

Please note that we operate a staged process both for our admissions and scholarship application processes for the Tech MBA.

- Each round of admissions has its own deadline for scholarship assistance.
- You cannot wait until you are notified of your admissions decision to apply for scholarships.
- Scholarship funds are granted in all rounds, with the greater part of them being awarded in the first rounds, so if scholarship assistance is a priority for you, you should apply early on.
- Scholarship decisions will be announced with the admissions decisions.
- If you would like to be considered for scholarships, please be sure to complete the required application by the relevant deadline.

The flowchart below explains how the submission process and outcome of a scholarship application works in every round

1 Start by submitting your admission application

Within 48 hours of submitting the admission application, access will be granted to the **scholarship application**.

As our scholarship application deadlines run parallel with our Tech MBA application deadlines, you must submit your scholarship application in line with the MBA Tech application round that you are submitting to.

The greater part of the scholarship funding will be awarded in the first rounds, so if scholarship assistance is a priority for you, we encourage you to apply for admission early in the cycle.

A number of High Potential awards, not application-based, will be offered upon admission to outstanding candidates, without consideration of financial need.

2 Sort the scholarships you qualify for

Browse carefully our scholarships and check your eligibility against the scholarships 'criteria.

If you are eligible, you can apply for a maximum of three (3) scholarships.

While you may apply for multiple scholarships, you can only be awarded one. Scholarships and amounts are offered at the discretion of the IE Scholarship Committee.

To view detailed descriptions and eligibility criteria for available scholarships, [click here](#).

3 Prepare your case

Most scholarships have specific eligibility criteria based on a combination of merit and financial need.

Funds are limited and the competition for scholarships is very high.

Your scholarship application will be considered with all other applications submitted during the same round.

Decisions can only be made on the basis of the information provided on your application, so be specific. Make sure you present a clear and compelling statement of why you meet the eligibility criteria; show a well thought-out, realistic financial plan explaining any financial need and why you should be awarded scholarship funding towards your studies; demonstrate your efforts in raising funds enabling you to attend the program.

4

APPLY ONLINE FOR SCHOLARSHIPS

4 Apply in time

Every round of admissions has its own deadline for scholarship applications, so make sure to submit a complete online scholarship application, with all the required supporting documents, by the relevant application submission date.

5

APPLICATION CONFIRMATION

5 Application confirmation

Upon submission of your scholarship application you will receive a confirmation email from our Financial Aid Office.

6

SCHOLARSHIP COMMITTEE EVALUATION

6 Scholarship Committee evaluation

To be considered for scholarships towards the Tech MBA, you must meet all the requirements for admission to the program. Scholarship applications filed by candidates who do not meet the admission criteria will not be assessed and evaluated by the Scholarship Committee.

The Committee will assess and decide on scholarship aid based on the information and documents provided in your application. They expect you to provide detailed comments and documents supporting your request for support and will not follow up for missing documents.

7 Scholarships application outcomes

Applications decisions will be notified with the admissions decisions. Decisions will be released according to the deadline you applied for.

There are 3 Scholarship possible outcomes:

- Successful scholarship application: along with your admissions offer you will receive an offer for scholarship with instructions for acceptance.
- Unsuccessful scholarship application: you will be fully notified if the Committee is unable to offer you a scholarship towards the Tech MBA.
- Stand-by scholarship application: scholarship decisions for the wait-listed candidates will be placed on a stand-by status and will be communicated upon admission.

8 Scholarship awarding process

The scholarship will only be awarded to you once you accept both the scholarship and admissions offers, under the conditions and the time frame provided in the notification emails. In the case of a non-response or declining of the offer of admission and accompanying scholarship offer, the scholarship offer will not be retained if you decide to accept at a later date. The scholarship is not transferable and will not be retained if you choose to defer your entry to a different intake or if you choose to transfer to a different program at IE.
