INTRODUCTION

IE Talent & Careers is committed to supporting students in their unique journeys of personal development and professional growth. With expert career advising and an extensive range of resources and tools, the team's dedication to their success is unmatched. Each year, our students demonstrate the value of this effort. With every accomplishment and accolade, and with every new role, career shift or entrepreneurial undertaking, they prove just how well-equipped they are to take on the world of work. And the graduating class of our **Master in Business Analytics and Data Science** is set to continue a long tradition of achievement and progress at the intersection of science and technology.

It's no secret that the STEM disciplines are in a state of flux. The impact of artificial intelligence and other emerging technologies is growing fast, disrupting industries and transforming how we live and work. Meanwhile, scientific breakthroughs in medicine, biotechnology, climate science, space exploration and more continue to push the limits of what's possible. Graduates of the **Master in Business Analytics and Data Science** are ready for this new landscape. Armed with a broad, in-demand skill set, they have what it takes to find innovative solutions that will reshape the future as we know it, and the knowledge, practical expertise and global network to make big things happen.

**The program name has been updated to Master in Business Analytics and Data Science*

74%

of tech professionals prefer to work remotely, opening the field to skilled talent from anywhere in the world.

OVER 800,000 JOB POSITIONS

will be available to STEM workers by 2030.

54%

of organizations reported a tech skills shortage, demonstrating the opportunities in the market.

CURRENT POSITION

BUSINESS TECHNOLOGY
CONSULTANT

**POSITION BEFORE
THE PROGRAM**

INTERNSHIP AS
BRAND GROWTH

My experience in the master's program has been truly transformative. I gained a holistic understanding of the entire data ecosystem, encompassing both technical intricacies and strategic business aspects. The program helped me boost my career by transitioning into technology consulting, equipping me with the essential skills and knowledge to thrive in this fast-paced industry.

CURRENT POSITION

AI STRATEGY CONSULTANT

**POSITION BEFORE
THE PROGRAM**

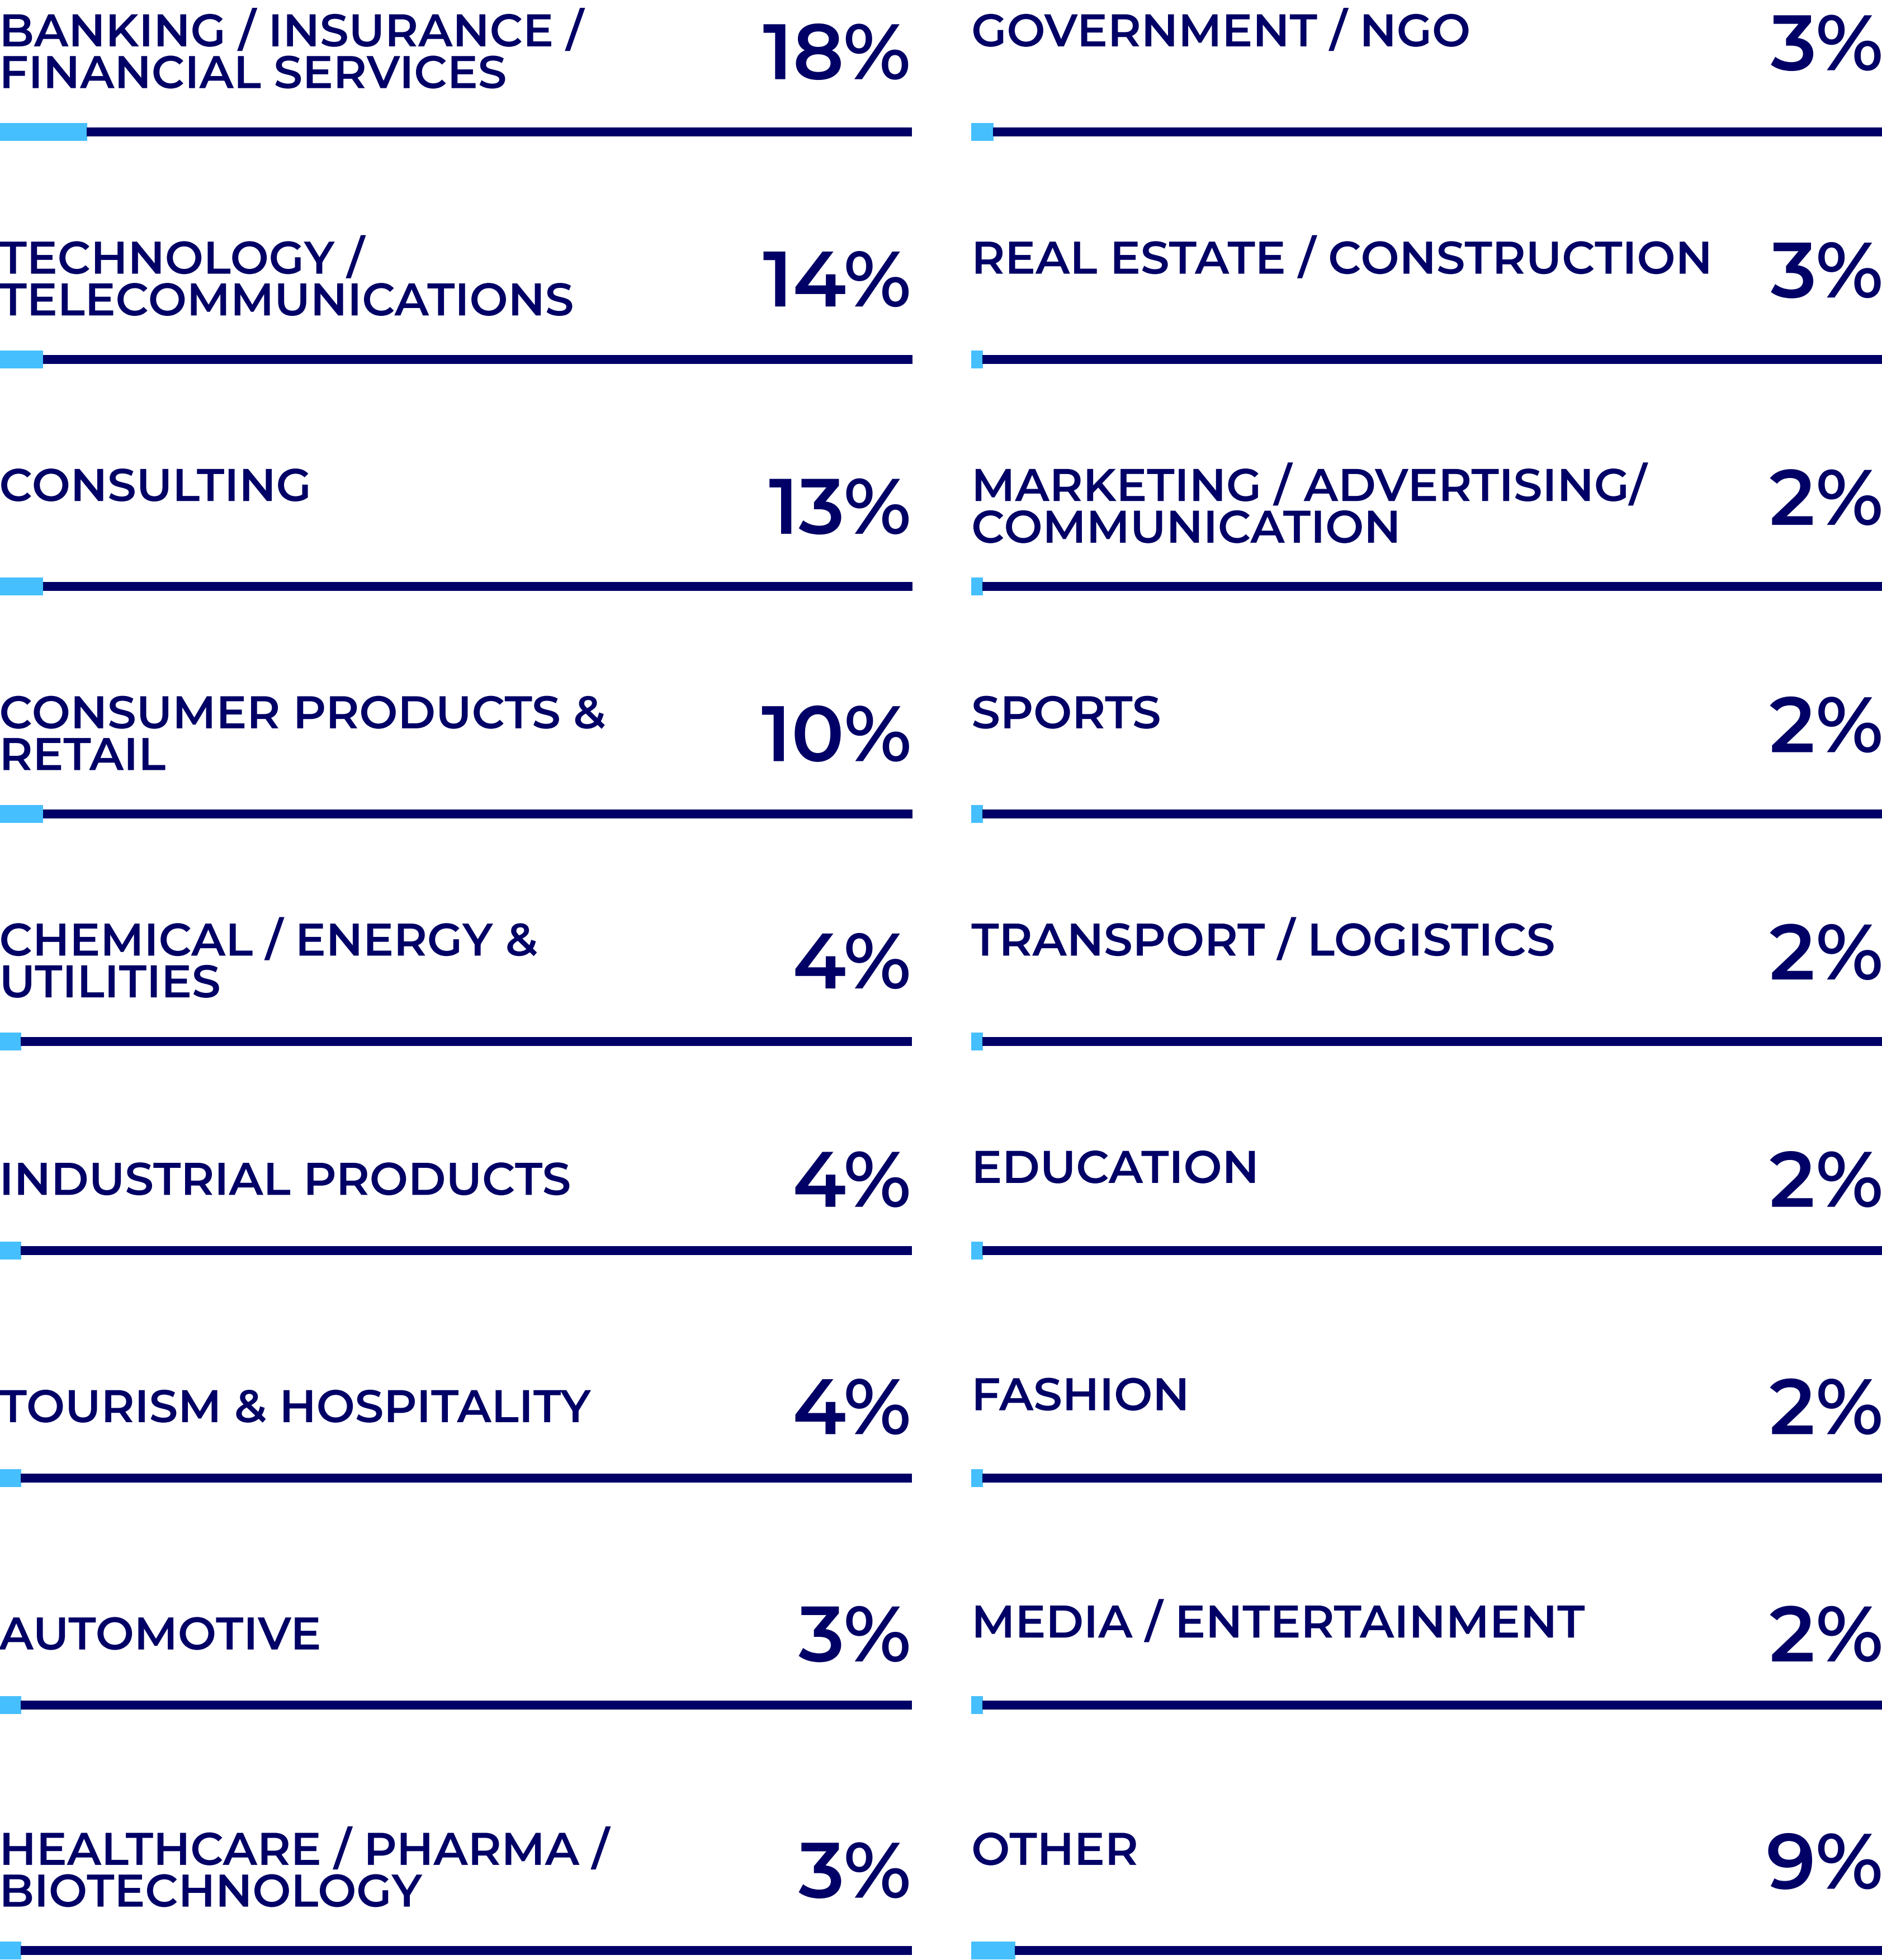

INTERNSHIP PRODUCT
INNOVATION CONSULTANT

Even though I have always been related to technology, I didn't know how to code and lacked an understanding of the underlying processes in data analytics. Now, I can talk about strategy with a C-level executive while having a deeply technical conversation with the lead engineer of an AI company.
