Next Gen
PROGRAMME

About NextGen Program

The IE NextGen Program is an international forum that offers **young professionals in the built environment and real estate industry** a platform to **voice their opinions, inspire and motivate others** through NextGen interviews, **share information about diverse career paths, and expand their professional network.**

The primary goal of this forum is to **facilitate discussions on major market trends, foster entrepreneurial initiatives** with an open-minded mindset, and **encourage multidisciplinary collaboration across real estate sectors beyond architecture and design.**

Within the context of IE University and this forum, our central **focus will be on enhancing the future of cities.** This entails prioritizing sustainability while ensuring **economic and social well-being for all.**

Our Vision

To inspire the next generation of real estate professionals that will shape the future of cities and the built environment.

Our Values

Committed, Inspiring, Inclusive

Pilars of Action

Thought Leadership

we are dedicated to being industry leaders by continuously staying informed about the latest trends, sharing groundbreaking ideas, and offering valuable insights that contribute to progress

Inspire

through our NEXTGEN interviews: we cultivate an environment of open discussion and inclusivity, encouraging diverse perspectives and ideas to ignite innovative thinking and inspire others.

Provide Professional Career Paths

We actively promote and showcase a wide range of career paths within the built environment, real estate and creative industries, empowering young professionals to explore and pursue rewarding opportunities, not always conventional career paths.

Our Goals

1. CREATE COMMUNITY

We create a sense of belonging through continuous gathering and sharing of ideas.

3. EXPAND THE NETWORK

We make alliances with other, international Next Gen Groups.

5. CAREERS

We inspire students to take less traditional career pathways and broaden their network, creating new career opportunities.

2. CREATE CONTENT

Thought Leadership aims to position the IE School of Architecture & Design on Real Estate trends.

4. INCREASE BRAND AWARENESS

With Next Gen we are adding a fresh, innovative, future-oriented perspective.

Our Impact

A photograph of a speaker at a podium addressing an audience in a modern, well-lit room with large windows. The speaker is on the right, and the audience is seated on the left. The room has a high ceiling with exposed wooden beams and large windows on the right side. The floor is made of light-colored wood.

INTERNATIONAL TALENT FORUM

International Talent Forum

THOUGHT LEADERSHIP

International Talent Forum

[IESOAD/CPA tackle the micromobility revolution](#) (April 2022)

[IESOAD/CPA discuss the future of working environments](#) (September 2021)

[IESOAD/CPA tackle sustainability at the first ITT](#) (July 2021)

[Real Vs Virtual: Real Estate and the Metaverse](#)

[Health and wellbeing in the built environment](#)

[Mobility as a driver of sustainability](#)

In 2021 CPA NextGen and IE NextGen Programme joined forces, to connect people across different places. Also, to tackle topics that we think are very relevant for all of us, whether you are in Real Estate, Architecture, Consultancy, Construction, Development etc, in any way related to the built-environment.

The main objective of this Task Forum is to encourage the exchange of ideas across borders between young talent. By joining the Task Force Forum, you'll be committing to meeting with a group of

likeminded people from across Europe's built environment quarterly (every three months) to share market updates and intelligence, create networks and harvest international business opportunities and connections. The sessions will be used to create digital content, such as blog posts, to be shared with community.
