

INFORMATION FOR TRAVELERS

January 2021

Travel Documentation for non-EU students.

Although we are currently living in exceptional circumstances, immigration laws still apply to non-EU citizens. Thus, those who wish to travel during Winter Break should keep their legal documentation up-to-date. If you have any questions about your immigration situation or travel plans, please get in touch with us at ieustudentservices@ie.edu (undergrad students) and at student.services@ie.edu (Masters students) and we will be happy to help.

Entry into Spain from a country or zone at risk.

Since November 23, 2020, all individuals who want to enter Spain from a countries or area listed as at-risk in [this publication of Spain's Official State Bulletin](#), must have a Diagnostic Test for Active Infection (PDIA) for SARS-CoV-2 with a negative result, carried out in the 72 hours prior to arrival in Spain. There are three types of PDIA: **PCR tests**, **TMA** (Transcription-Mediated Amplification) and **RT-LAMP** (Reverse Transcriptase Loop-Mediated Isothermal Amplification)

Upon entering Spain, the individual must demonstrate having taken this test, with a negative result, and will therefore not need to respect a quarantine period upon arrival.

The at-risk list of countries and areas will be reviewed every 15 days and updated on the website of Spain's [Ministry of Health](#).

Recommendations from travel agencies

Government restrictions

- Continuous verification is recommended before departure and during the trip.
- Verify the requisites for crossing the borders of the departure/arrival/layover-stopover country, as well as the requisites for return to the country of origin.
- Some countries are restricting the return of national and international travellers who have visited specific destinations.
- Be in contact with origin/destination **consular services** and your travel provider.

Country-specific restrictions that passengers need to follow at the airport and onboard the aircraft [Link](#)

Personalised passport and visa advice based on your personal details and itinerary. Check if your travel documents are sufficient [Link](#).

Health requirements (Test and declaration forms)

- Verify the requirements with the **local/health authority**, depending on where you are flying.
- Check governments requirements [Link](#)
- Introduce [Link](#) the name of your airline to know more about their requisites
